## Im-Pression

I didn't know about Kenya at all before I met him, I was surprised at his cheerfulness though he had a lot of hard things to get over. Sometimes we are selfish, thinking for example, we don't want to go to school, though we have enough. We have enough things. Even though school is far and they have to be stationary, the Kenyan students want to study. It's great. The song "NEGA!" will encourage people in the world. More people will think about peace if they listen to this song.
